Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged

The information designated as confidential is detailed financial information including a balance sheet, income statement, cash flow statement, and operating reports that include access line and subscriber counts and route mile data that is competitively sensitive information not normally released to the public. Access line and subscriber counts and route mile data, although contained in the financial report is also confidential commercial information. Release of any of this commercial or financial information would have a substantial negative competitive impact on the Company.

Explanation of the degree to which the information concerns a service that is subject to competition and how disclosure of the information could result in substantial competitive harm

This type of commercial and financial information is generally not subject to routine public inspection under the Commission's rules (47 C.F.R. § 0.457(d)), demonstrating that the Commission already anticipates that the release of this type of information likely would produce competitive harm. Release of the information designated as confidential would allow competitors to become aware of sensitive proprietary information regarding the operation of the Company's business and would cause the Company substantial competitive harm.

Identification of measures taken by the Company to prevent unauthorized disclosure; availability of the information to the public and extent of any previous disclosure of the information to third parties.

The Company treats and has treated the non-public information included in this submission as confidential and has protected it from disclosure to parties outside the Company. Any financial information required to be submitted to a state regulatory authority has been filed as confidential information, not available to the public, in accordance with state rules and/or statutes.

Justification of the period during which the Company asserts that material should not be available for public disclosure

The Company cannot determine any date on which this information should not be considered confidential.

Other information the Company believes may be useful in assessing whether its request for confidentiality be granted

Under applicable Commission rules and court rulings, the information designated by the Company as confidential should be withheld from public disclosure. Exemption 4 of the Freedom of Information Act protects information that is commercial or financial in nature; obtained from a person outside government; and privileged or confidential. The information in question satisfies this test.
